## Module Components

<table>
<thead>
<tr>
<th>Module Learning Objectives</th>
<th>Learner Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Describe the six common stages of practice facilitation</td>
<td></td>
</tr>
<tr>
<td>• List the five core members of an Integrated Behavioral Health Implementation Team</td>
<td></td>
</tr>
<tr>
<td>• Describe strategies for determining if the core members of an IBH Implementation Team are the most appropriate staff for the team</td>
<td></td>
</tr>
<tr>
<td>• Explain what the practice facilitator does before and during the kickoff meeting</td>
<td></td>
</tr>
</tbody>
</table>

## Reading

## Post-Test Questions

- Based on Baker, Lefebvre, and Sevin’s capacity-building model, which one of the following types of interventions might a Practice Facilitator carry out when a team is struggling to understand the concept of how integrated care differs from traditional or usual care?
- Based on Baker, Lefebvre, and Sevin’s capacity-building model, which one of the following types of interventions might a Practice Facilitator carry out when a site needs assistance conceptualizing a PDSA?
- Based on Baker, Lefebvre, and Sevin’s capacity-building model, which one of the following types of interventions might a Practice Facilitator carry out when a member of the Implementation Team is particularly quiet or overly talkative during team meetings to the detriment of others?
- Who are the five core members of the Implementation Team?
- What are some of the disadvantages of having too many front line staff involved in the Implementation Team meetings?
- Once an IBH Implementation Team is in place in a practice, how long can it take for the practice’s behavioral health services to become financially sustainable?
- Before the kickoff meeting, what are some of the issues the Practice Facilitator can begin to investigate?
- During the initial kickoff meeting, how can the Practice Facilitator determine if the right people are present?
- During which of the following stages of IBH practice facilitation might a site complete a tool such as the MeHAF?
- Learning collaboratives can be a helpful tool in bringing together multiple sites working on similar initiatives to share barriers and approaches. (T/F)

**Homework Assignment:**
Recommend that participants submit an org chart from their organization and using that to justify who should be the key members of their IBH implementation team.

**Questions for call with Nelly Burdette, PsyD.**
