

# Investments in Primary Care

Friedberg et al., 2010

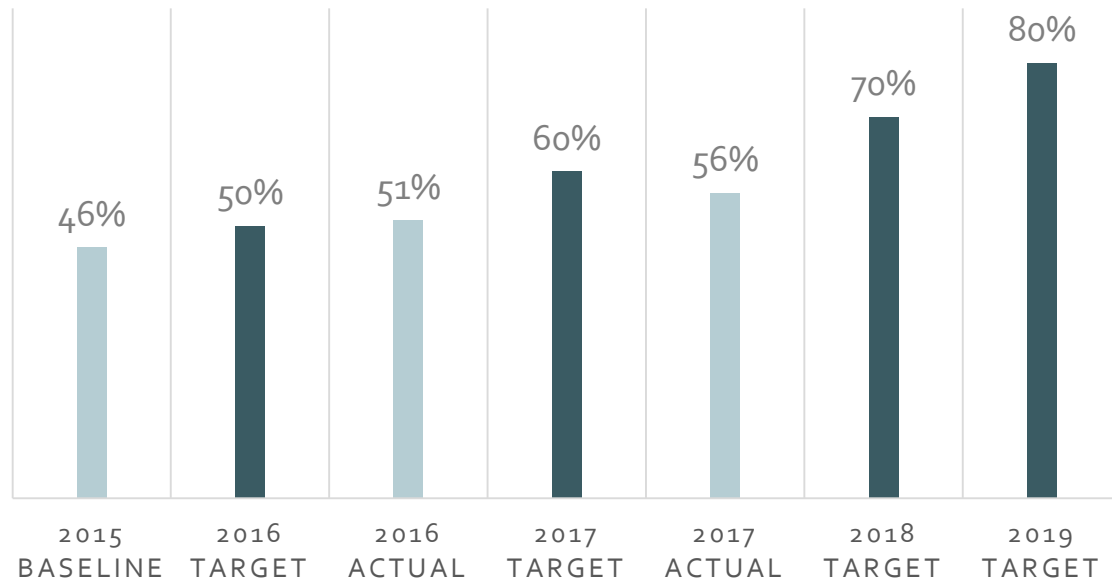

**Evidence suggests strengthening primary care will lead to improved outcomes and lower costs. 2010-2014- OHIC required increase primary care spending by 1 %/year**

### Primary Care Spending, Total and as % of Total Medical Spending

# Transforming the Healthcare Delivery System

## CARE TRANSFORMATION PCMH TARGETS

The Affordability Standards transform the way primary care is delivered -- higher quality and lower cost care mutually reinforced by healthcare financing.

- **Target:** 80% of primary care practices contracting with each health insurer will be designated Patient Centered Medical Homes (PCMH) by the end of 2019
- The Care Transformation Advisory Committee develops an annual plan for achieving this target
- Insurers are obligated to financially support PCMH practices

# Aligning Quality Measures

OHIC requires commercial insurers to use the same “Aligned Measure Sets” in any contract that has a financial incentive tied to quality.

- Core Measures standard in contracts.
- Any measure beyond the Core must be selected from the list of Menu Measures.

Measure Sets	2018 Measures
ACO	10 core, 49 menu
<b>Primary Care</b>	<b>6 core, 24 menu</b>
Hospital	8 core, 13 menu
Maternity	2 core, 7 menu
Mental Health	3 core, 11 menu
Substance Use	1 core, 2 menu
